NAME：KX-40T Slider toroidal transformer winding machine

Brief technical description:

Brand new PLC+touch screen control system, German manufacturing technology,
Servo motor + combined with proximity on/off counting to ensure hundreds of percent accurate turns and the highest idling speed of the machine head

The speed can reach 1600rpm; the stepper motor ensures beautiful wiring;
fully automatic/manual setting of the front and rear of the product
Rotation direction; fully automatic/manual control of wire spacing;
fully automatic/manual addition and subtraction of winding speed;

SPECIFICATION:

Wire diameter	**0.1-1.0mm**
Minimum finish inner diameter	**10mm**
Maximum completion height	**80mm**
Maximum finish outer diameter	**25-150mm**
Max speed	**1500rpm**

Magazine diameter	**150mm**

PRACTICAL APPLICATION :

Training for Customers on KX-40T Slider Toroidal Transformer Winding Machine Operation
1.All our service engineers, with 10 years of experience, have received special technical training—including specialized expertise in the KX-40T Slider Toroidal Transformer Winding Machine—enabling them to effectively resolve various breakdown issues specific to this slider slider-type toroidal winding equipment.
2.We provide detailed guidance on the accurate operation and maintenance of the KX-40T Slider Toroidal Transformer Winding Machine, while offering free consultation on electronic product production process technologies related to toroidal transformer manufacturing and slider-based winding applications.
3.To ensure the KX-40T Slider Toroidal Transformer Winding Machine operates normally, we conduct comprehensive training on its slider mechanism, operation procedures, usage, and maintenance through English manuals, model-specific instructional videos, and dedicated online guidance tailored to this equipment.

PACKAGING:

Packaging Material: Carton/Wooden case with foam inside.
1.General package(Paper carton or plastic bag): For small euipped parts for Hook Type Transformer Winding
Machine, Package it with form and pack paper to guarantee unbroken during the transport.
2.Wooden case package: For larger scale Hook Type Transformer Winding
Machine,we have special skilled
carpenter, who would make the proper wooden case with exact thickness,density,length. The up arrow ↑marked on the outer wooden case. Buffer material would be put in the wooden cas e to prevent crack and shock.

FACTORY:

Founded in 1993, KIOXIA LIGHT RING EUIPMENT GROUP CO.,LTD. has established itself as a well-known manufacturer specializing in high-performance winding machines, along with associated production equipment and technical expertise. A key offering in its specialized product range is the KX-40T Slider Toroidal Transformer Winding Machine—a precision-engineered solution featuring an advanced slider mechanism, designed for efficient and accurate winding of toroidal transformers, embodying the company’ s focus on specialized toroidal winding technology.

Beyond delivering specialized equipment like the KX-40T Slider Toroidal Transformer Winding Machine, KIOXIA LIGHT RING provides highly cost-effective comprehensive manufacturing solutions. These solutions cater to the production needs of various wound components, including transformers, chokes, and more, ensuring reliable support for efficient, high-quality processing across diverse winding applications.
